NETCU: Small Grp: National Extremism Tactical Coordination Unit

Setup originally for A.R. issues, but now expanding = (At present 11 people)

Purpose: To liaise with industry and explain NETCU's role.

Domestic Extremism - Criminal Act of Direct Action

'Extremist': Crosses boundaries of law to achieve aim.

Covers: A.R.: - Governmental.

Extr. L.W.: Emerging Threats

Extr. R.W.: - " - "

! Predominantly Derby & N.E.

Financing: Major way to raise cash: Street Connections

Environmental Activists: Big graffiti area - Nuclear Power Stns

Trains hijacked - to Drax Power Stn. / Oxford Labs

Climate Camp: Changing tactics - Next Climate Camp? - others

- but will be very disruptive.

Domestic Extremism

NETCU

as above

NDIET

Enforcement?

IV Police

Intelligence

AA - Home Visits. Feb 04 45/50 - now lower level
 GB - Loss to Cos of Nations ~~was~~ directed at Cos & plants
 outside UK as well: Govt "Realising Britain's Potential -
 Future Strategy". Concern over losses when sensitive Cos either
 leave UK or establish plants outside UK because of threat.
 Next 50 years - UK committed to low carbon emissions:

Construction Industry

Construction of Pharmaceutical labs etc, R-Research, CRO.
 construction at v. low level. but of Constr. Ind not
 reporting to Police, then Police don't know of the level -
 "tip of the iceberg?"

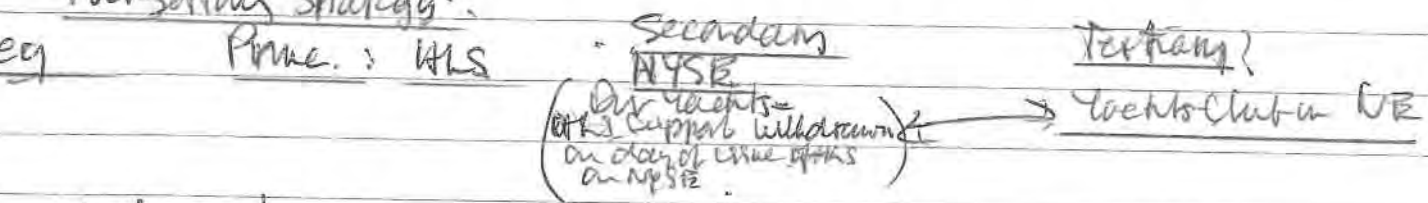

Cambis Labs SPBAC/SPBAK: Govt. Set up cover. Co. worked
 behind this - now nearly completed.

Theories: Principle R.R. targets:

- Centres of research - Universities. Farming?
- Live Exports.
- Hunting with Dogs etc

Fear is main weapon - some tactics learnt from IRA.

Targeting Strategy:

Oxford: UHS

Novafine: Supplier to UHS.

Demonstrations: Effective: - lawful or not? - Part of our culture.

greenpeace: £15m - cost of cloning Kingsnorth power stn - more danger
 to hospitals, etc

Malicious Gammunations: - letters to neighbours - re Employee of
 Co. (UHS) "A connected phaeophile" - UK true but some of it sticks
 - hard to refute - altitudes can change "roses grow without fire"

SITE BACK set website - Novartis - Sablon product can be unmetabol
 or not? - co withdrawn product from tesco

also FT watch (oop? Pop? watch

Tactics . Pre-Event: "Stops Search" - "Your legal rights"

NETCU watch: (NETCU is only 11 people)

AR Hotspots:

PIC Printers = All printers have own individual footprint
(How much paper? How low tracked?)

AR. Achursh targetting is v. accurate - why?

Internet & Publications:- tactics of individual

Gathering of information = (Methods/Patterns) - Mosaic Approach

to Gathering info: - Extremists

Greatest source of info: the internet & Intranet (inside Co's)

Intranet is most vulnerable - Temporary workers come into Co & take information links. Temp work at key times... Eg. Jan/Feb, Aug/Nov, / Christmas - Co's need to have strong vetting procedures in place.

Where to find info (of an ARE.):

: 192.com - search on individuals (can remove own entry from 192 site website)

Company Websites: Many Co's have a Public Site - these are usually Firewall - Password Protected for others to prevent access.

AUCSO: Assn of U - ... Chief Security Officers: - website

Zoominfo: www.zoominfo.com - Correlator info on individuals

What is on other websites.

www.linkedin.com/-13k. - "Proactive Intervention Points."

"Deep Web Search" - right into internet - Portfolio of names on any site: v. Good Profiles obtained.
